

## **STEM Project Statement Examples**

(Examples of 12/12 submission)

### SCIENCE

Experiment: Does the height of a ramp affect how far a car travels?

Model: I am going to build a model of human respiration and explain how each organ works.

Display: I am going to build a display showing deciduous trees found in San Joaquin parks.

Survey: Which popcorn brand produces the most popped kernels?

### TECHNOLOGY

We are going to dream of a shopping cart 20 years from now.

### ENGINEERING

Rube Goldberg: I am going to build a 6-step Rube Goldberg contraption to pop an inflated balloon.

eGFI: I am going to complete the Can-Do Canoe project.

ThinkCentral: I am going to do the Sea Turtles of Shark Bay video-based project.

### MATHEMATICS

I am going to create a spelling video game using Scratch.
