

Technology Tri-Board Requirements

(DO NOT WRITE NAME, NUMBER OR GRADE ON FRONT)

Write Grade and
Number(s) on back

Technology

Write a statement indicating what technology you selected for your project.

History of Technology

Attach pictures/drawings showing the history of the technology. Be sure include brief descriptions under pictures describing how old technology used to work.

Current Technology

Attach pictures/drawings showing the current technology. Be sure include a brief description under the pictures describing how the current technology works.

Exploravision

Future Technology

Attach pictures/drawings showing the way you dream your new technology of being and explain how it will work and why it is an improvement over existing technology. Be sure include brief descriptions under pictures describing how old technology used to work.

Breakthroughs Needed

Briefly summarize the scientific breakthroughs, engineering inventions, or production improvements that need to happen before your future technology can exist.

Conclusion

Discuss how this project helped you learn about science and/or engineering. What would you do differently if you had more time to work on it. What else could you have done to produce a better future technology idea?
